

National Union president, Fred Rolando, should be complimented on his decision to have rallies all across the nation on March 24 to save six day delivery. Lobbying Congress (millionaires) and lobbying Senators (more millionaires) should only be part of our strategy. Taking our fight to the streets and building solidarity with our communities is the only way we are going to win the battle to keep six day delivery and maintain the USPS as we know it. After all, labor history in America has shown that all of our gains have been made through militant action in the streets. Just look what the great postal strike of 1970 achieved for us!

Remember the three biggest lies corporate America is telling today. 1) The Postal Service is broke. 2) The Postal Service cannot operate in the internet age and 3) The Postal Service runs on tax dollars. All vicious lies in their effort to privatize the USPS. The USPS brought in \$65,200,000,000.00 or 65.2 BILLION DOLLARS last year, in a sluggish economy! That means there are 65.2 billion reasons greedy Wall Street barons and corporate America want to privatize the USPS, bust the Unions and replace all of us with low paid workers with no benefits. We must fight these filthy rich, privatizing scoundrels with everything we've got!

Please visit our web site set up by Union Brother Chuck Clark at (WWW.NALC3825.COM). All of our grievance summaries, including escalating remedies on 24 different issues are on this web site. We have added important Step B decisions, Formal A settlements as well as arbitration decisions and some contentions. You can see how much money each supervisor in the nation makes. You can also see the number of stops on each route, and detailed colored maps for every route in the country!

IN THE STRUGGLE,
