

SCRIBE ARTICLE FOR THE JANUARY 2013 POSTAL RECORD

All this talk of a fiscal cliff is making me nauseous. This is a trick by the super rich to get poor and working people to pay for tax breaks for the millionaires and billionaires. And, if Congress attaches language to a fiscal cliff bill to eliminate Saturday delivery or other language detrimental to the Postal Service and the American people, then this Lame Duck session of Congress will be even more devastating. The working class cannot and will not sit idly by and let the rich pigs take away Social Security, Medicare and Medicaid! There will be fightback action in the streets the likes of which we haven't seen since the 1960's!!

The same rich people who own most of the media are pushing for these tax breaks for the ultra wealthy. They tell us that this creates jobs, even though every fair study shows that tax breaks for billionaires does not create jobs! These same rich tyrants are the ones telling the American people that the Postal Service must be privatized because it's a dinosaur and cannot operate in the internet age. We must combat these lies. The Postal Service brought in 67 billion dollars last year, even in a bad economy. This would rank the Postal Service 31 on the Fortune 500 list! The reason these rich scoundrels and corporate America want to privatize the Postal Service is due to the fact that it brings in so much money! There are 67 billion reasons corporate America wants to privatize the Postal Service!
